RECENT EVENTS

Maripet 8th Meeting: Second Multiplier Event has completed on December 22nd, 2023 in Ege University, Faculty of Fisheries, Orhan Kılıç Conference Hall.

The meeting started at 10:30 on Friday, December 22, 2023, at the Orhan Kılıç Conference Hall at Ege University Faculty of Fisheries, with the project manager Assoc. Prof. Dr. It started with İlker Aydın's opening speech about the project and continued with a presentation summarizing the Maripet EU Project. The partners of the project, the characteristics of BARF feed and the definition of discarded fish were explained. Information was given about the scarcity of statistics on discarded fish, the discarded fishing problems that occur during fishing, and the evaluation of discarded fish at sea and on land. The current Maripet Project website was introduced and the courses and sample studies on the subjects on the E-Learning Platform were shown to the participants. Various questions of faculty members and students who attended the meeting were answered.

Within the scope of the MARIPET Erasmus+ vocational training project supported by the Turkish national agency, aquaculture engineers, veterinarians, food engineers, agricultural engineers, fishermen and pet food producers constitute the primary target professional groups. Within the scope of the MARIPET project, coordinated by Ege University Faculty of Fisheries and carried out by Assoc. Prof. Dr. İlker AYDIN, training activities will be carried out on the production of a food in which discarded fish fillets are used instead of the mixture obtained from terrestrial animal meat in the raw food content. The Erasmus+ project, which will last for 24 months under the leadership of Ege University and involves 7 partner organizations in total, includes Balıkesir University and İzmir Metropolitan Municipality from our country, while Norway, Iceland, Croatia and Lithuania support Ege University as international partners. The project aims to reduce waste in fisheries, ecological and economic development by raising awareness of the use of discarded marine products in feeding dogs and cats.

Co-funded by the
Erasmus+ Programme
of the European Union
